

**Major Performance of the Environmental Protection
Administration, Executive Yuan in June 2020
(Toxic and Chemical Substances Bureau)**

- I. On June 16, 17 and 23, the 2020 Inter-departmental Promotion Team Meetings of the “National Implementation Plan of the Republic of China (Taiwan) under the Stockholm Convention on Persistent Organic Pollutants,” “The Management Plan of Endocrine Disrupting Chemicals (Phase two),” and “Promotion Plan for Implementation of Minamata Convention of United Nations” were held, respectively.
- II. On June 12, the application of Yung Chyang Chemical Industries Corp., Ltd. for the registration of the existing chemical substance "zinc oxide" standard (level 4) was approved and a completion code was issued. It was the first approval of the existing chemical substance standard registration. A press release was issued on June 22, explaining that it only took three months for "Yung Chyang Chemical Industries," a small enterprise with fewer resources and less manpower than a large enterprise, to complete the registration and receive the completion code through the EPA Helpdesk.
