

Major Administrative Actions of the Toxic and Chemical Substances Bureau (TCSB), Environmental Protection Administration, Executive Yuan in May 2022

1. On May 3 and 4, 2021, the annual interdepartmental steering group meeting was held for the “United Nations Minamata Convention on Mercury Implementation and Promotion Plan”, “The Stockholm Convention on Persistent Organic Pollutants Implementation Plan” and the “Environmental Hormone Management Plan (Phase III)”. At the meeting, all departments jointly summarized the 2021 implementation results of the said plans and confirmed the implementation objectives of 2022. All departments were requested to continue to promote the said plans according to the latest resolutions of the conventions.
2. On May 17 the TCSB published the press release “The Environmental Protection Administration’s (EPA) 2021 Environmental Agents Inspection Results. Please do not sell environmental agents online without a license”. The purposes thereof were to let citizens understand government policy regarding the management of environmental agents and to advocate the use of safe alternative environmental agents for cleaning.
