

Chemicals Administration, Ministry of Environment Major Policy Implementations in December 2024

1. On December 15 and 16, the “2024 Toxic and Chemical Disaster Prevention Team Building” event was jointly organized with the Ministry of Education. Heads of environmental safety and health units from colleges and universities, local environmental protection agencies, environmental incident technical teams, and consulting and monitoring centers were all invited. The event aimed to build a consensus on toxic and chemical disaster prevention and response in colleges and universities through thematic lectures and group seminars.
2. Attended the 3rd meeting of the “Food Safety Board” in 2024 to report on the “Current Status of Implementing the Food Safety-Related Information Platform and Interdepartmental Integration,” with the Ministry of Environment presenting the “Current Status of Implementing the Integration of the Chemical Cloud.”
3. On December 25, the “2024 Seminar on the Outcome of National Chemical Substances Management Policy Guidelines and Action Plans” was held, and members of the National Chemical Substance Management Board, relevant agencies, and industries were invited . The seminar was themed “Green Chemistry Technology Innovation and Promotion” and aimed to share experiences, practices, and

results related to promoting green chemistry innovation.
