

Chemicals Administration, Ministry of Environment
Major Policy Implementations in January 2025

1. Attending the “Discussion on the Management of Foods Testing Positive for Sudan Dyes” meeting organized by the Office of Food Safety, Executive Yuan, on Jan. 8 to report on and discuss “Subsequent Measures Regarding Foods Testing Positive for Sudan Dyes between 2023 and 2024.”
2. Convening a meeting on Jan. 20 to discuss the subsequent assistance and coordination matters regarding the "Establishment of Hazardous Chemical Substances Management and Disaster Response Meetings by Municipal and County (City) Governments." At the meeting, local governments were urged to establish a mechanism for regular meetings and report their progress to the Ministry of Environment.
