

## Chemicals Administration, Ministry of Environment

### Major Policy Implementations in February 2026

2. On February 12, the Chemicals Administration attended the 48th meeting of the Food Safety Joint Inspection Committee organized by the Office of Food Safety, Executive Yuan. At the meeting, the Chemicals Administration presented the implementation results of the "2025 Joint Inspection Project for Handlers of Toxic Chemical Substances Used as Colorants with Food Safety Risks."
3. On February 23, the Executive Yuan officially approved the "National One Health Joint Plan of Action 2026–2030" Moving forward, the Chemicals Administration will collaborate with the Ministry of Health and Welfare to implement the plan, conduct regular performance evaluations, and carry out rolling reviews based on practical demands.
